The Honorable Jon Dudas

Director of the United States Patent and Trademark Office

JAN - 6 2006

Dear Director Dudas:

This is in regard to the patent term extension application for U.S. Patent No. 4,831,031 filed by Pfizer, Inc. under 35 U.S.C. § 156. The patent claims Geodon (ziprasidone HCL monohydrate), NDA 20-825.

In the April 29, 2005, issue of the Federal Register (70 Fed. Reg. 22341), the Food and Drug Administration published its determination of this product's regulatory review period, as required under 35 U.S.C. § 156(d)(2)(A). The notice provided that on or before October 26, 2005, 180 days after the publication of the determination, any interested person could file a petition with FDA under 35 U.S.C. § 156(d)(2)(B)(i) for a determination of whether the patent term extension applicant acted with due diligence during the regulatory review period.

The 180-day period for filing a due diligence petition pursuant to this notice has expired and FDA has received no such petition. Therefore, FDA considers the regulatory review period determination to be final.

Please let me know if we can provide further assistance.

Sincerely yours,

Jane A. Axelrad
